BATTERY AND CHARGING SYSTEM - GENERAL INFORMATION

BATTERY CARE SHEET (G2283224)

mcx30.com

DESCRIPTION AND OPERATION

BATTERY CARE SHEET

Replacement startup and auxiliary batteries for service.

**NOTE:**

Fields marked with * are mandatory and must be completed.

DATA TYPE	RECORD DETAILS BELOW:
*Jaguar Land Rover (JLR) part number	-
*Invoice or delivery note number	-
*Date	-

Do the battery care requirements and record the results below.

For additional information, refer to: [Battery Care Requirements](#) (414-00 Battery and Charging System - General Information, Description and Operation).

ACTIVITY	RECORD STARTUP BATTERY VOLTAGE
*Initial startup battery voltage	Battery tester code (if applicable)
*Voltage	-
*Date	-
*Signature	-
Post charge test (if applicable)	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
30 days from initial startup battery reading	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
Post charge test (if applicable)	Battery tester code (if applicable)

ACTIVITY	RECORD STARTUP BATTERY VOLTAGE
Voltage	-
Date	-
Signature	-
60 days from initial startup battery reading	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
Post charge test (if applicable)	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
90 days from initial startup battery reading	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
Post charge test (if applicable)	Battery tester code (if applicable)
Voltage	-
Date	-
Signature	-
*Customer handover	Battery tester code (if applicable)
-	The startup battery voltage must be more than 12.54V.
*Voltage	-
*Date	-
