GLOVEBOX LOCK (G2683862)

mcx30.com

REMOVAL

 NOTE:

- This procedure contains illustrations for left hand drive vehicles, right hand drive vehicles are similar.
- This procedure contains illustrations showing certain components removed to provide extra clarity.
- This procedure contains some variation in the illustrations depending on the vehicle specification, but the essential information is always correct.

1. With the glovebox closed: insert the key and lock the glovebox.

2. **CAUTION:**

The key must be kept in the glovebox lock.

1. Reposition the glovebox handle to get access to the glovebox lock clip.
2. Release the lock clip and remove the glovebox lock.

INSTALLATION

1.

CAUTION:

The key must be kept in the glovebox lock until the lock is fully inserted.

NOTE:

If a new component has been installed, Insert the key into the new lock.

- Press the clip and install the glovebox lock.

2.

Unlock the glovebox and remove the key.
