Folding Top Stowage Compartment Lid Replacement

Warning:

When the folding top or folding top stowage compartment lid is opening or closing, personal injury may occur by the parts in motion. Ensure all individuals involved maintain a safe distance from these parts while operating to avoid any personal injury or vehicle damage

Warning:

Components under the folding top stowage compartment lid, close to the engine, can get hot from running the engine. To help avoid the risk of burning unprotected skin, never touch these components until they have cooled, and always use a glove or towel to avoid direct skin contact.

Caution:

Follow these guidelines when operating the folding top or damage can occur:

- Remove all items from the roof, trunk lid, or folding top stowage compartment lid before operating
- Remove all objects that may contact the folding top when it is operated.
- Do not leave the vehicle with the folding top open.
- Do not exceed 50 km/h (31 mph) until the folding top has completely closed or opened.
- Do not open or close the folding top while driving in high wind conditions.
- Do not operate the folding top multiple times in a short period of time without starting the engine to avoid draining the vehicle battery.
- Only store the vehicle with the folding top fully closed.

Removal Procedure

1. Operate the folding top stowage compartment lid to the fully open position. Folding Top Description and Operation
2. Click here for full size
