

# Final Drive

Final Drive Component Exploded View

| Item | Description                       |
|------|-----------------------------------|
| 1    | Differential ring gear            |
| 2    | Differential assembly             |
| 3    | Transfer shaft gear               |
| 4    | Transfer shaft                    |
| 5    | Output planetary carrier hub      |
| 6    | Transfer shaft drive gear bearing |
| 7    | Transfer shaft drive gear         |
| 8    | Stator support assembly           |

Final Drive Component Cutaway View

### Final Drive Gears and Differential Assembly

The final drive consists of a drive and driven gear, transfer shaft, ring gear and differential assembly. The drive and driven gear transfer torque from the output planetary carrier hub to the differential assembly.
