

Electric Powertrain Cooling - Component Location

Item	Description
1	High voltage battery coolant cooler
2	High voltage battery coolant diverter valve
3	Motor electronic coolant pump outlet hose
4	Heater hose assembly
5	Electric motor electronics radiator outlet hose
6	High voltage battery radiator hose assembly
7	High voltage battery radiator outlet hose
8	Electric motor electronics radiator
9	High voltage battery radiator
10	High voltage battery radiator inlet hose
11	Motor electronic coolant pump inlet hose
12	Degas bottle
13	Degas bottle inlet hose
14	High voltage to low voltage converter assembly
15	Transmitter inverter control module
16	High voltage to low voltage converter outlet hose
17	Degas bottle hose assembly
18	High voltage to low voltage converter inlet hose
19	Electric motor electronics coolant pump
20	High voltage battery coolant cooler inlet hose
21	High voltage battery coolant diverter valve outlet hose
22	High voltage battery coolant diverter valve inlet hose
23	Battery assembly
24	High voltage battery cooler jumper hose
25	High voltage battery coolant pump
