

Evaporative Emissions - System Operation and Component Description

System Operation

Refer to the PC/ED manual section 1 Description and Operation.

System Diagram

Item	Description
1	Fuel tank filler pipe
2	Fuel delivery module (FDM)
3	Fuel level sensor (FLS)
4	Fuel tank
5	Vapor recirculation line
6	Fuel tank pressure (FTP) sensor and tube
7	EVAP vapor blocking valve (VBV)
8	EVAP carbon canister
9	EVAP canister valve
10	EVAP canister inlet filter
11	Fresh air vent tube
12	Fuel bundle
13	EVAP purge valve (EPV) and tube
14	Intake manifold
