

SECTION 502-02: Full Frame and Body Mounting
GENERAL PROCEDURES

2014 F-150 Workshop Manual
Procedure revision date: 10/25/2013

Frame Drilling

1. If a hole must be drilled in the frame, make sure the hole meets the following requirements:
 - The hole is at least the specified distance from the edge of the nearest hole.
 - The edge of the drilled hole is at least the specified distance from the edge of the flange.
 - The hole is at least the specified distance above the frame centerline.
 - The drilled hole is at least the specified distance from any other existing bracket or component of the frame.
