3	—	Instrument panel upper bin
4	W707628-S	Front Display Interface Module (FDIM) screws (4 required)
5	—	FDIM electrical connector (part of 14401)
6	10D885	FDIM

Removal and Installation

1. **NOTE:** Module configuration is required when a new Front Display Interface Module (FDIM) is being installed.

Upload the FDIM configuration information to the scan tool . Refer to Programmable Module Installation (PMI) in [Section 418-01](#).

2. Remove the mat, the 2 screws, and the instrument panel upper bin.

3. Remove the 4 screws and the FDIM.
 - Disconnect the electrical connector(s).
 - To install, tighten to 2 Nm (18 lb-in).
 4. To install, reverse the removal procedure.
 - Download the configuration information to the FDIM. Refer to PMI in [Section 418-01](#).
