- Weather (current weather, forecasts, radar images)

DESCRIPTION AND OPERATION > INFORMATION AND ENTERTAINMENT SYSTEM - SYSTEM OPERATION AND COMPONENT DESCRIPTION > SPEED COMPENSATED VOLUME

The ACM compensates for wind and road noise by adjusting the audio system volume based on the VSS signal and customer-defined setting.

When a MyKey ® is in use and the MyKey ® Volume Limiter is enabled, the speed compensated volume is disabled.

DESCRIPTION AND OPERATION > INFORMATION AND ENTERTAINMENT SYSTEM - SYSTEM OPERATION AND COMPONENT DESCRIPTION > STEERING WHEEL SWITCH FUNCTIONS

The RH 9-way steering wheel switch operates the volume +/-, seek +/-, audio mode, mute, voice, send/receive call, and end call functions.

DESCRIPTION AND OPERATION > INFORMATION AND ENTERTAINMENT SYSTEM - SYSTEM OPERATION AND COMPONENT DESCRIPTION > SYNC ® SERVICES - IF EQUIPPED

SYNC ® Services is a subscription-based service, and requires a non-subscription-based SYNC ® owner account in order to subscribe. The SYNC ® Services subscription is associated with a Bluetooth-enabled mobile phone number, while the SYNC ® owner account is associated with a VIN. For SYNC ® owner account enrollment or SYNC ® Services subscription information, refer to www.syncmyride.com.

The customer's registered mobile phone is used to access and download information from the SYNC ® Services server. The information received by the customer's registered mobile phone is sent to the APIM.

The GPS antenna, integral to the GPSM, is used to detect the location and direction of the vehicle.

SYNC Services ® allows the customer to connect to the following services:

- Traffic (incidents, traffic flow, drive time, delays, and construction and lane closures if applicable)
- Traffic alerts via text message (incidents, new construction, and/or delays for a specified route during a specified time period)
- Directions (route can be sent to vehicle)
