NOTIFICATION

Herewith Ford Motor Company confirm that the following vehicle has a new engine.

Model	Vehicle Identification Number
->	->

The engine legal code and engine number was stamped as replaced engine according to FORD Standard:

Engine Number	Engine Code
->	->

Following engine legal code and engine number was stamped manually:

Legal Code	Engine Number
->	->

In some instances Ford Motor Company may remanufacture used engines to a new condition for service replacement. In these instances there may be an old engine number on the cylinder block for traceability, these engines will also be marked "XXREMXX". All Ford Motor Company engines have sufficient space to apply a new engine number in addition to the existing number.
