

Lubricants, Fluids, Sealers and Adhesives

| Specifications                                      |
|-----------------------------------------------------|
| Material: <a href="#">WSS-M97B44-D (Antifreeze)</a> |

Antifreeze

| Percent Antifreeze /Coolant to Distilled Water | Freeze Protection |
|------------------------------------------------|-------------------|
| 42 / 58                                        | -26 °C            |
| 58 / 42 (Extreme Cold Climates)                | -50 °C            |

Cooling System Capacities

| Description               | Unit   |
|---------------------------|--------|
| Cooling system and heater | 10.5 L |

Cooling System Pressure

| Description                                 | Unit          |
|---------------------------------------------|---------------|
| Radiator pressure test                      | 1.38 bar      |
| Coolant expansion tank cap release pressure | 1.35–1.55 bar |
| Cooling system pressure test                | 1.24 bar      |
| Auxiliary Radiator (removed from vehicle)   | 1.38 bar      |

Thermostat Opening Temperatures

| Description    | Temperature |
|----------------|-------------|
| Starts to open | 82 °C       |
| Fully open     | 97 °C       |
